

- JUnit

### ■ Spring Batch Test

Example:

@Test

```
void testJob() {
    JobExecution execution = jobLauncherTestUtils.launchJob();
    assertEquals(COMPLETED, execution.getStatus());
}
```

Burmese:

Spring Batch  JUnit  test  Job run  state  check 

## 5. How Playwright CAN be used?

You can use Playwright to trigger batch via API or UI.

Example flow:

Playwright -> API -> Spring Batch -> DB

Burmese:

[illegible]

Summary:

- Playwright cannot test batch logic directly
- Use JUnit for batch logic
- Use Playwright for UI/API trigger

Burmese Summary:

Playwright █ batch █ direct test █

Batch logic ■■■ JUnit ■■■■■■■■■■■■■■■■

[illegible]
